Rain is falling all around,
On the housetops,
on the ground.

On the housetops,
on the ground.
Rain is falling on my nose,
On my head
and hands and toes.
Rain is falling all around,
On the housetops,
on the ground.
Rain is falling on my nose,
On my head
And hands and toes.

And hands and toes.
Leaves are falling all around,
On the housetops,
on the ground.

On the housetops,
on the ground.
Leaves are falling on my nose,
On my head
and hands
and toes.
Snow is falling all around

On the housetops,
on the ground.

On the housetops,
on the ground.
Snow is falling on my nose,
On my head and hands
and toes.
Wind is blowing all around,
On the housetops,
on the ground.

On the housetops,
on the ground.
Wind is blowing on my nose,
On my head

And hands and toes.
Sun is shining all around,

On the housetops,
on the ground.
Sun is shining on my nose,
On my head
And hands and toes.

And hands and toes.
